Women in Technology (WIT) empowers and educates women and girls about opportunities in science, technology, engineering, the arts, and math (STEAM) by delivering professional development and networking opportunities to women and free educational programs to students.

WIT plays a key role in the Atlanta community by establishing and supporting relationships with local organizations and supporting initiatives that invest in the lives and education of local girls and women.

The WIT Foundation awards grants to area organizations and nonprofits focused on girls and STEAM. WIT also partners with sponsors and local organizations to provide educational programming, content and events that support women in transition and students in underserved communities in Georgia.

Twice a year, WIT hosts sponsors, supporters, and key Atlanta executives and business leaders at unique fundraising events that raise funds to support WIT’s mission and programs for current and future female STEAM leaders.

WIT CONNECT celebrates student academic achievements through the presentation of scholarships and raises funds through a unique executive auction in June.

WIT AWARDS celebrates current and future female leaders and visionaries in business, education and technology through Girl of the Year and Women of the Award presentations in November.
WIT gathers Atlanta’s top talent and thought leaders for networking, learning and inspiration at curated events designed to provide professionals with actionable skills and knowledge they can use to strengthen themselves and their workplace.

WIT FORUMS are monthly breakfast events that feature a range of relevant and engaging topics delivered by individual speakers and panelists from leading companies and organizations.

WIT SOCIALS are evening networking events held twice a year that provide a unique opportunity for individuals ranging from young professionals to C-suite executives to network and engage in relaxed setting.

WIT supports the next generation of female leaders in STEAM by providing free educational programming and opportunities to students in middle school, high school and college.

WIT GIRLS programs provide middle and high school students with hands-on experience and educational workshops that ignite an early interest in careers in STEAM. Programs offered include: Behind The Scenes – Career Exploration – Immersion Experience – Job Shadow – Mentorship.

WIT CAMPUS programs strengthen an initial interest in STEAM by immersing college students into their desired careers and providing them with tools and resources needed to succeed in the workforce. Programs offered include: Behind The Scenes – Career Exploration – Getting Ready For The Workforce – Internships.
BECOME A SPONSOR

WIT collaborates with the Georgia business, nonprofit, and technology communities to set young women on the path to a STEAM career. Internships and scholarships provided by WIT Partners inspire girls from middle school to college to explore STEAM careers.

HOW IT WORKS

The WIT partner program is simple - and completely customizable. Just select at least two WIT Programs or events to sponsor from the opportunities listed on the back page. The minimum investment is $10,000 for companies with more than 250 employees; $5,000 for companies with less than 250 employees.
